NUMB. 320

FRIDAY, JUNE 8, 1744

Madrid, May 18.

HE News of our Squadron's sailing from Cartagena proves a little premature; the Truth of the Matter is, that the Great Lion, a Seventy Gun Ship, arrived there lately from Cadix, with four Transports laden with Naval Stores for the Use of our Squadron; which, we hope, will be in a Condition to Sea by the End of the Month. M. de Lage de arrived here on the 12th from Aranjuez, kiss'd Majesty's Hands, and was exceedingly well received both by the King and Queen. The latter is now well recovered from her Fright as to the Affairs of the Kingdom of Naples, the Duke de Montemar assured their Majesties, that it will be impossible Prince Lobkowitz to make the Conquest of that Kingdom, while there is in it a veteran Army of between 30 and 40,000 Men.

May 30. The French, who are settled here, presented several Petitions, in order to have the for their Departure enlarged; but, hitherto, they have not been able to succeed. The Spirit rais'd here at that Nation, is much greater than it was observed to be in the last general War. When Mr. Vincent, his most Christian Majesty's Minister, took his leave of the Foreign Ambassadors residing here, he had Mortification of being told by the Secretary of the French Ministry, that he was busy, and could not see him, which was then look'd upon as a very odd Thing; we are since inform'd, that Republique has enter'd her Measures in Italy; and that his Britannick Majesty is to take 6000 Veterans into his Pay, which is to be employ'd for the Service of the King of Spain.

We hear no more of the late Conspiracy, and little is said of the Affairs of the Marquis de Botta. Intrigues of the French Court, lately discover'd in Spain, respect the Duchies of Bremen and Verden; the Recovery of which, they would have had the French Troops, now in Sweden, employ'd, together with 12,000 National Forces; and offer'd to take upon themselves the whole Expenses of the War.

June 6. The Baron de Palm, Envoy from Queen of Hungary to several Courts in the Empire, arrived here last Sunday, and the next Day had an Audience of his Serene Highness, our Elector; by whom he was very graciously received, and had afterwards the Honour to dine with him. When we expected every Day the News that the Austrian Army had attack'd the Imperialists, we were surpris'd to hear, that the Duke of Saxe-Coburg and Traun had signed an Instrument, by which the Neutrality concluded last Year is confirmed, explained, and extended; and we are since inform'd, that an Order has been published in the Austrian Camp, forbidding any Hostilities to be committed against the Army of the Empire, under Pain of Death.

June 7. Things are still in very great Confusion here. The Imperial Army remains in its Camp at Philipshourg, and it actually consists of 100 Regiments of Foot, each 1500 Men; six Regiments of Horse, of 600 Men each; and about 2000 Hussars. Count de Wied-Runkel, who, if the Female Line can take Place, is certainly next Heir to the late Prince of Prussia, is coming hither, to oppose the King of Prussia's having the Investiture granted him of the Duchy of that Prince, which, it is thought, will offend the Imperial Court pretty much; the Emperor, hitherto, shew'd himself a very strict Observer of the Laws, without any Respect of Persons. The Imperial Family are, at present, in good Health, and avoid, and take all the Diversions of the fine Country.

## HOME PORTS.

June 6. Wind N. E. Remains the Harwich of War, and the Outward-bound as per last; with Richard and Thomas Tender. Came down the River, for Jamaica.

June 6. Pass'd by the Claus Bertle, Boffo, Norway.

## LONDON.

The Marshal de Saxe having seiz'd the Bridge of Boon on the Canal between Bruges and Ghent, has sent a Fort there in three Days Time, furnished it with six Pieces of Cannon, and left a Corps of 6000 Men. There are private Letters from the Hague which say, that Prince Charles of Lorraine will very speedily march

with 100,000 Men from the Rhine, into the Austrian Netherlands, and that M. de Coigny will follow him thither with 70,000 Men.

On the 9th Instant, N. S. the Count de Podewille, Minister from his Prussian Majesty, had an Audience, in Ceremony, of the States General, in which he received an Answer to the Memorial which he presented to their High Mightinesses on the 2d of this Month.

On Sunday died, in advanced Years, at his House at Woodford, Mr. Crutchley, formerly a wealthy Scarlet Dyer at the Bank-Side.

surprising Manner, all internal as well as external  
Hæmorrhages, i. e. it infallibly and quickly stops all  
ravenous Bleedings at the Nose or Gums, spitting of  
Blood; also the immoderate Flux of the Hemorrhoids, or  
Piles; bloody Urine or Stools, bleeding of large Wounds  
(if used according to the plain Directions given with it)  
will appear by the Certificates of several Eminent Physicians,  
and in the large Account of this Medicine, written by the  
Doctor himself, and dedicated to the College of Physicians  
a little before his Death.  
It keeps good for many Years, at Sea or on Shore, in all  
Climates; therefore must be universally useful.  
The Doctor not only obtaining his Majesty's Letters under  
the sole Vending of this most Excellent Medicine, but also  
a Clause in a late Act of Parliament, exempting his  
Medicine from the Inspection of the Council of the College  
of Physicians, to which all other Medicines are liable.  
N. B. The late Learned Dr. CHEYNE, in his  
Piece, entitled The Natural Method of curing the Disorders  
of the Body, &c. prefers EATON'S STYPTICK to all  
other Stypticks; and speaks of it as follows:—  
"knows the agglutinating Quality of sweet Blood, and  
prehend it is to this, that EATON'S Stypticum owes its  
mild, soldering Efficacy.—It is more mild, tender,  
and soft, than the mildest Steel Preparations, and  
to patch a Hole, or glew up a Rupture, or to give relief  
to the acrid and inflam'd flowing Blood of the Piles, &c.  
says, he is confirmed in this by a Physician of great  
and Candor, who has great Opportunities of dealing with  
Cases, by his Practice in Midwifery. See p. 146.

taking, and in five Minute's Time, it perfectly cures the  
severest Gripings in the Guts, and immediately expels the  
Wind from the Stomach or Bowels (as it were) in Bubbles.  
For all wandering Pains in any Part of the Body, and in  
some Persons the Forerunners of a fixed Rheumatism, or  
the Gout (mistaken many times under the Notion of  
tick Ailments) this famous Medicine has not its Equal.  
Having wrought Wonders in these Cases on great Numbers  
People, who, before taking it, could neither sit, stand, walk,  
at Ease; but were in intolerable Pain Night and Day, and

present Pain, and, by a short Continuance of the same,  
recovered to perfect Health again.

**The Princely beautifying LOTION**  
Whose INIMITABLE VIRTUES and TRANSCEN-  
DENT EXCELLENCIES have gained it so much Reputa-  
tion, that envious Imitators endeavour, tho' in vain, to  
terfeit it.  
It beautifies the Face, Neck, and Hands to the most  
perfection, and is in the greatest Esteem amongst Ladies for  
the first Quality. No Words can sufficiently express its  
virtues; for it is not of the Nature of Paint, which  
and unnatural Gloss on the Skin; but is a Remedy  
its Use, really gives a Lustre to the most beautiful  
ing the fine Features of the Face, and is so safe, that  
the least Grain of Mercury in it, that it may be taken  
and it smells too, is really good against Vapours.

ly cures any Defect in the Face, giving a charming  
Lustre and fine Air to the Features, to Admiration.

bled with any disagreeable Redness, Roughness, or  
Heats, or the like, it is not to be parallel'd, for it  
ately smooths, clears, plumps, nourishes, and whiteneth  
to the last Degree, and makes those Persons who have been  
bagged and old, to look young, beautiful, and full;  
short, it far exceeds any thing that was ever yet  
made publick, for clearing and beautifying the Face.  
It will keep good twice Seven Years, well cork'd.
